

## Room 3 – P4/5

Term 1 August - October 2023

### Literacy

In literacy, we are reading together 'The BFG' and have been writing about our own dreams and using lots of different strategies to work out the BFG's gobblefunk words. We have been continuing to work on spelling tricky and common words.

We enjoy watching Newsround daily and can have great discussions about the different issues and stories that are raised.

We have been able to learn across the curriculum with our BFG study and have looked at bullying issues, finding different places on a map that the BFG travelled to... with the highlight being following a recipe to make Frobscottle!

### Numeracy

In Numeracy, we have been working on our place value to 10,000 and beyond. We have been continuing with our Number Talks strategies by using partitioning to help us mentally add 3 and 4 digit numbers.

In Maths, we have been looking at 2D and 3D shape.

### Health & Wellbeing

In P.E. we have been having great fun learning new skills in football. We have been working on our passing skills and control of the ball, and then putting our skills to use when playing a game.

### Learning Across the Curriculum

On Tuesday afternoons, we love our Outdoor Learning lessons in the garden. We have made our own natural paintbrushes and created a class picture together, and made bird-feeders and different habitats for the garden wildlife. We show great teamwork in our Outdoor lessons and have lots of fun.
