

Room 3-P5/6

Term 3 January-April 2026

Literacy

As a class, we studied *Voices in the Park* by Anthony Browne, using a range of reading skills to predict, make inferences, and compare the perspectives of key characters. We also analysed the illustrations and wrote an extra chapter. We really enjoyed exploring this story!

Numeracy and Mathematics

As well as exploring multiplication and division we have been exploring aspects of measure. We can use rulers and metre sticks to measure and calculate both perimeter and area. These are all important skills for work and real life.

HWB

When developing a growth mindset we explored how mistakes are learning opportunities. We built paper bridges to learn from our mistakes and then discussed how we could transfer this learning to other situations.

Learning Across the Curriculum

During our Malawi topic, we explored the challenges of subsistence farming and initiatives which support essential crop growth. In a small team, we applied our drama skills to present a news broadcast to the class. We even videoed our performances!
