

## Room 3

Term 4 April - June 2026

### Literacy

In Literacy, we focused on the Describing Bubble, using adjectives to describe objects, places and characters in more detail. Using the 7 characteristics (size, shape, colour, number, texture, doing and position), we thought carefully about our word choices and wrote fantastic sentences, especially when describing Paddington and Spiderman!

### Numeracy and Mathematics

This term, we have focused on measure, money, and fractions. We have continued this learning by exploring how to add amounts of money and calculate the correct change when making purchases.

### Health and Wellbeing

During indoor P.E, we have been practising our golf skills to develop our control, accuracy and coordination through target-based games. We have also had fun playing outdoor games, including rounders, to build upon our teamwork skills. Our highlight this term was Sports Day!

### Learning Across the Curriculum

In our Enterprise topic, we learned about how to create and run a small business, including developing ideas and working as a team to make decisions. Alongside this, we enjoyed creating our 3D butterfly artwork, inspired by the poem *The Black Hat*. We were extremely proud of the finished pieces!
