

Room 2 – P3/4

Term 2 October-December 2024

Literacy

In Literacy this term, P3/4 have been looking at character descriptions. We created marvellous descriptions of Mr Hoppy who was the main character of our class novel Esio Trot.

Numeracy

Primary 3/4 have been focussing on addition this term. We are amazing at bunk bed sums and have enjoyed creating our own calculations by rolling dice to create digits to add together.

All of P3/4 have also been learning to identify lines of symmetry, we had lots of fun using mirrors to help us.

Health and Wellbeing

In P3/4, we have been focussing on racket skills in team sports and have been developing our serving skills. We have been able to transfer our serving skills into a game of Badminton and Tennis, using our new techniques to clear the net.

Learning Across the Curriculum

As part of our class novel topic, Esio Trot, P3/4 worked in small teams to create a device to catch and carry a small tortoise (just like Mr Hoppy does in the book). We had to design and problem solve in our groups and then during Outdoor Learning tested to see if the creations worked! We loved this STEM activity!

Miss Kelly, Mrs Speirs and Cinnamon wish you all a Merry Christmas and a Happy New Year.
