

## Room 2 - P3/4

Term 4 April-June 2025

### Literacy

In Literacy this term, we have been working really hard to use speech marks in our writing. We had lots of fun using macaroni to place speech mark in different sentences.

In writing, we have been working on our letter writing skills. As our topic is on Australia, Room 2 wanted to write a persuasive letter to Mrs Gardiner asking if we could go on a school trip to Australia!

### Numeracy

We have been looking at fractions this term. We have enjoyed finding fractions of an amount using their multiplication knowledge to help them.

We have also enjoyed completing some measure activities during outdoor learning. We used water and different equipment to measure how much water it takes to fill different sized items.

### Health & Wellbeing

P3/4 had a great opportunity to learn some mixed martial arts. We enjoyed learning different punches and kicks from the professionals!

### Learning Across the Curriculum

We have been learning all about Australia. We have enjoyed learning all about the different animals, weather and mining. We have been creating mining carts during STEM and have loved collaborating with each other to make these!
